VIETNAM
8 P.M. Wednesday, March 6
Room 206

Vietnam is no accident; the imperialistic and genocidal war against the Vietnamese people is necessary to the military system of the United States, a system based on a violent world view of which American politics and economics are a part. When I was a child, I heard Eisenhower and Lodge warn against self-determination for Vietnam which would result in the loss of tin and tungsten exports from Southeast Asia. Vietnam, which used to export rice, now imports it from the United States, and the price has risen fifty per cent in one year.

Catherine Allsup, 21, student, P. O. Box 11, Norton, Massachusetts. Excerpts from The Source magazine.

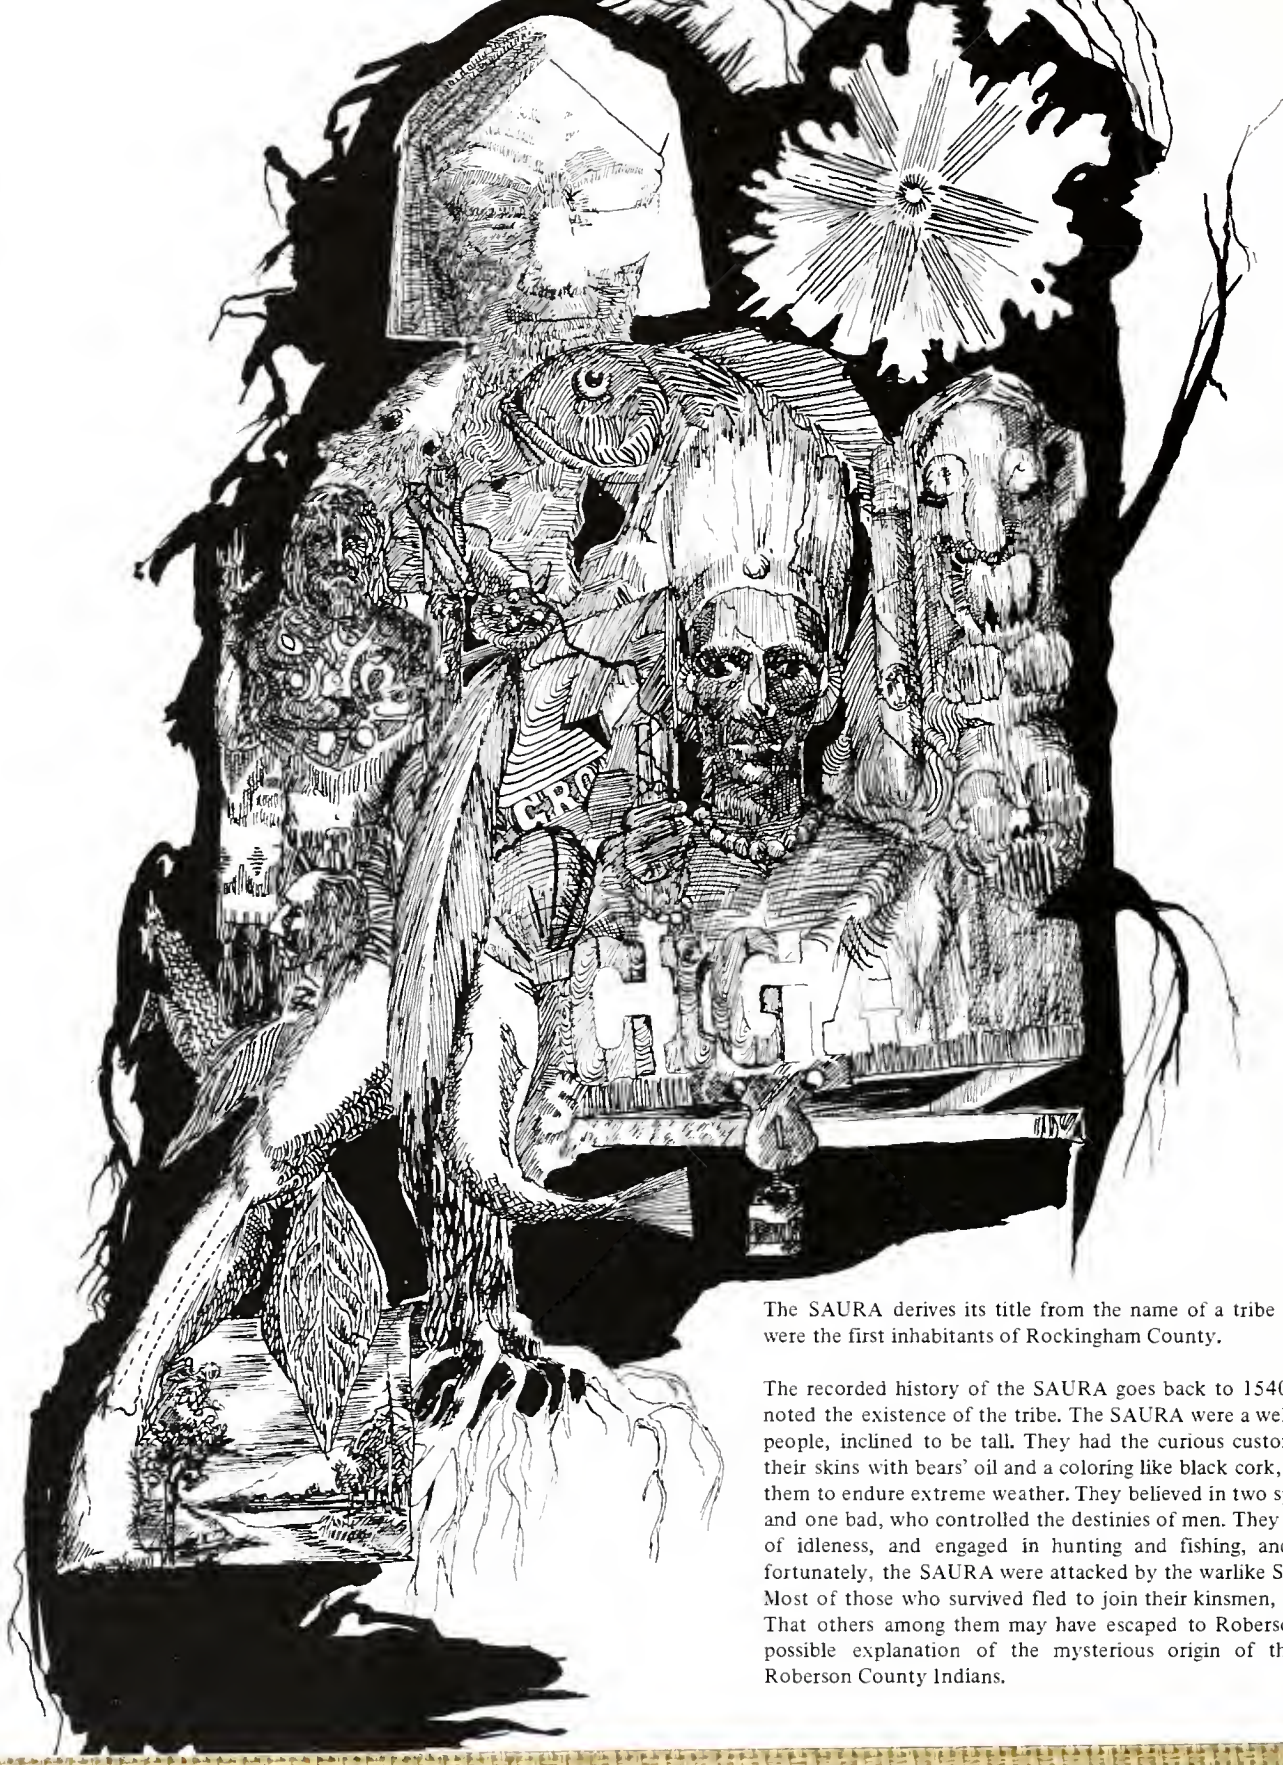
"NO SMOKING"



The SAURA derives its title from the name of a tribe of Indians who were the first inhabitants of Rockingham County.

The recorded history of the SAURA goes back to 1540 when De Soto noted the existence of the tribe. The SAURA were a well-formed, clean people, inclined to be tall. They had the curious custom of darkening their skins with bears' oil and a coloring like black cork, better enabling them to endure extreme weather. They believed in two spirits, one good and one bad, who controlled the destinies of men. They were intolerant of idleness, and engaged in hunting and fishing, and farming. Unfortunately, the SAURA were attacked by the warlike Senecas in 1710. Most of those who survived fled to join their kinsmen, the Keyauwees. That others among them may have escaped to Roberson County, is a possible explanation of the mysterious origin of the present day Roberson County Indians.

SABRE

Section Seven
Automatic Green Autograph

The coffin, a concrete core, is cutting into my heart,
The flag folded in boomerang pain when tossed
comes home again, while the spectators AH and OH at the
curving thing.
Thumbs down to them all, matriculating maddness on the scene.

They were lowering him down to the sounds of ignitions
and the pale purr of exhaust pipes.
Curious fingers felt for breath in the floral tributes.
In no time the worm had erased the agony of the
detached darlings, the dirt debt paid.

Leave now and let well enough alone.

From "THE BURIAL OF PRIVATE CURRIN"
Jess Maghan

let the smell of wild flowers
flow free through my blood.
B. Dylan

a buddha finished meditating one day
and laughed
and put on a clownsuit
and walked downtown
with his eyes dancing
and told people that life swings
and people said, "We already know that,"
as they drudged wearily on
but the buddha didn't give up
he made funny faces
and gave people flowers
and danced with children
and one day people started telling him
that life swings

when the clown laughs
the children laugh
when the children laugh
the clown laughs more
the clown and the children
dance together
laughing into each other
building joy building love
but sometimes the clown cries
remembering
that on the otherside of the world
children cry
and bullets fly
and the bored and lonely pilots
drop their bombs
